

YOUR ROLE

FRONT END DEVELOPER

Team / Manager	Technology Team / Head of Technology
Why your role is important	As a Front-End Developer within our technology team, you will be responsible for implementing user interfaces that provide exceptional user experiences. Collaborating with the UX/UI Designer and Back-End Developers, you will bring web applications to life using Vue.js and other modern front-end technologies. Reporting to the Head of Technology, you will play a key role in delivering customer-centric digital solutions.

MAIN RESPONSIBILITIES

- Always underpin the ART of UMi by being willing to use your skills, experience, and personal characteristics to support projects and activities outside of your core role.
- Be UMi's greatest advocate through active involvement in promotional and marketing activity and through broader networking and introductions.
- Uphold our commitment to people, planet and profit by consistently operating to UMi's policies, standards and ethics.
- Develop and maintain user interfaces for web applications using Vue.js and other modern front-end technologies.
- Collaborate closely with UX/UI Designers to translate design concepts into responsive and visually appealing interfaces.
- Ensure the technical feasibility of UI/UX designs and optimize applications for maximum speed and scalability.
- Work with Back-End Developers to integrate front-end components with C# .NET middleware.
- Write clean, maintainable, and well-documented code in Git repositories, following established coding standards.
- Participate in code reviews to ensure code quality and adherence to best practices.
- Troubleshoot and debug front-end issues, ensuring a smooth user experience.
- Stay up to date with emerging front-end technologies and industry trends to recommend improvements and enhancements.
- Collaborate with the DevOps team to implement CI/CD pipelines for front-end code deployment.

THE ART OF UMi

Our values and beliefs

- **Adventurous** – our adventures take us far and wide – they’re tough and exciting but we are fearless and open-minded about where they might lead.
- **Responsible** – we share a collective responsibility to each other, respect the world we live in, and we keep our promises.
- **Togetherness** - We can achieve more together than we can apart, and we know that businesses are more than just bricks and mortar or numbers on a spreadsheet – they’re powered by people.

YOUR ROLE WITHIN UMi

- Team: Technology Team
- Reports to: Head of Technology
- Reports: None

THE ESSENTIAL THINGS YOU NEED

- Proven experience as a Front End Developer or similar role.
- Proficiency in Vue.js or other modern front-end frameworks.
- Strong understanding of HTML5, CSS3, and JavaScript (ES6+).
- Experience with responsive design and mobile-first development.
- Knowledge of version control systems, especially Git.
- Understanding of cybersecurity best practices and principles, including knowledge of common web application security vulnerabilities and how to mitigate them (e.g., OWASP Top Ten).
- Ability to work effectively in a collaborative team environment.
- Excellent problem-solving skills and attention to detail.

THE THINGS THAT ARE NICE TO HAVE

- Familiarity with client-side rendering using a JavaScript framework.
- Familiarity with Razor pages for server-side rendering.
- Experience with Azure DevOps for CI/CD pipelines.
- Knowledge of UX/UI design principles and tools.
- Familiarity with cross-browser compatibility and accessibility standards.
- Ability to collaborate well with end users to gather and interpret requirements, and actively contributing to user acceptance testing (UAT) for solution validation.
- Passion for staying updated on emerging front-end technologies and best practices.
