WHAT IS GET FUNDING?

Our Get Funding service simplifies the funding journey for businesses by providing **expert guidance** and **tailored support** to help businesses access the **right funding**.

Get Funding gives you access to a team of business funding advisers that will support you through every step of the funding process right through to decision - what's more, they'll continue to be by your side for as long as you need them.

With a human-led, digitally supported approach, our dedicated business funding advisers begin by understanding your business goals, challenges, and growth ambitions—because funding should support your strategy, not shape it. Once we've diagnosed your needs, we tailor a pathway that might include commercial finance, grants, investment, or other support that reduces cost, lowers risk, or accelerates your progress.

If there's a smarter way to fund your plans, we'll help you find it, shape it and connect you with the right expertise to make it happen.

We source, prepare, review and submit funding applications for businesses, making it easier for them to access vital funds to **grow** and **thrive**.

Why choose UMi GET FUNDING?

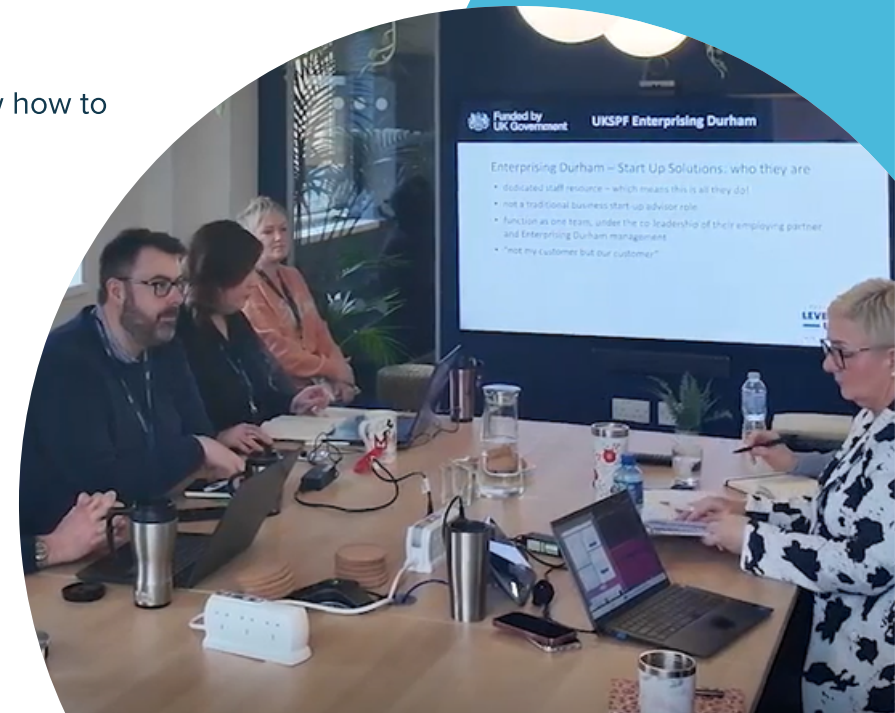

Tap into the experience and knowledge of our advisers to get your business ready for funding.

We have a vast experience of securing finance, delivering grant schemes on behalf of the public sector and preparing businesses ready for investment.

This makes UMi unique in terms of funding knowledge, placing UMi as the ideal choice to advise businesses which options will be successful for them, where to find finance, grants and investment opportunities and how to maximise successful applications.

We know what a great application looks like.

Every scheme is different but we know exactly what funders are looking for and we know how to express your project in the most optimal way to get that money.

HOW DO WE SUPPORT YOUR FINANCE JOURNEY?

During your initial consultation, we take the time to understand your business goals, growth ambitions, challenges, and finance requirements. This insight allows us to tailor a finance solution that genuinely supports your long-term success.

Our support is then structured around **two key stages**:

Preparing for Finance

We work closely with you to get your business finance-ready. Your business funding team will assess your eligibility, explore suitable options, and help you position your application for maximum impact.

Securing Finance

Once you're ready, we manage the entire application process — from identifying the most competitive offers through to securing the funds. We also remain on hand post-funding, offering ongoing support as your business evolves.
